Good Advice for Liberal People

People in Liberal who have constipation, sour stomach, or gas on the stomach, should use simple buckthorn bark, glycerine, etc., as compounded in Adler-i-ka, the new German appendicitis remedy. A SINGLE DOSE brings relief almost INSTANTLY because this simple mixture antisepticizes the digestive organs and drains the impurities. Chas. Taylor & Co., Druggists.

A covered wagon went through Liberal Monday, headed for eastern Kansas and coming from Colorado. On either side of the top of the wagon was painted these lines: "Except ye repent ye shall all likewise perish." They did not explain the presence of the line, more than to say that they came from Colorado.

Growers of Broom Corn.

By observing the following rules carefully, growers of broom corn will handle, seed and bale their crops in a manner that will assist in bringing them the very highest market price.

Whereas, many growers of broom corn deliver their crops improperly seeded and baled.

Therefore be it resolved, By the National Association of American Broom Manufacturers, broomcorn dealers and brokers, in convention assembled in Chicago, this 4th day of April, 1911, that we adopt the following rules for the proper handling of broomcorn:

Rule 1.—All standard variety, or cut broomcorn, must be cut so that the stalks do not exceed six inches in length.

Rule 2.—All seed, boots, leaves and trash should be removed from the broomcorn.

Rule 3.—Broomcorn must not be baled until it is thoroughly cured and dried, and there must be nothing but thoroughly cured, dry broomcorn put in the bales separately.

Rule 4.—All broomcorn must be bound by five smooth, soft wires, not heavier than No. 10, and not lighter than No. 11, American gauge, and must have, in addition, four cross wires on the four sides of the bales, securely fastened to the end wires.

Rule 5.—Every broomcorn grower and dealer must place a tag on each bale, bearing the name and address of the grower.

Penalty A.—Baling up seed, trash and foreign substances with broomcorn and marketing it as broomcorn being a criminal offense under the statutes of the state, the owners and those assisting in improper seeding and baling may be prosecuted to the full extent of the law. Any prosecution brought under the foregoing rules will have the full support of the National Association of Broom Manufacturers, and also of all broomcorn dealers and brokers.

Be it further resolved, That the president appoint a committee to give these resolutions the widest publicity by publication in trade and local papers, periodicals and newspapers, and by placarding same in all of the principal broomcorn markets.
